

CIL AND S106 MASTERCLASS

26 NOVEMBER | LONDON

DAVID ATTMORE

COMMUNITY INFRASTRUCTURE OFFICER,
PLANNING & DEVELOPMENT
ADUR & WORTHING COUNCILS

Ahead of [CIL and s106 Masterclass](#) some of the speakers share their thoughts on managing and spending CIL, taking place on 26 November.

David Attmore, Community Infrastructure Officer, Planning & Development, Adur & Worthing Councils, shares his thoughts on managing and spending CIL.

WHAT ARE THE CHALLENGES FACING THE SPENDING OF CIL? WHAT CAN LOCAL AUTHORITIES DO TO HELP SUCCESSFULLY DELIVER INFRASTRUCTURE USING CIL?

There are a number of challenges relating to spending CIL. They range from engaging with external stakeholders, such as the County Council, to forecasting likely CIL receipts, and ensuring the process is robust for the expenditure of the CIL Neighbourhood Fund receipts. Local authorities should ensure that Members and senior officers are informed of the process for spending CIL and agree on an approach on how this will be decided and updated. Projects should only be allocated CIL funding once they are at a deliverable stage.

WHAT IS YOUR TOP PIECE OF ADVICE FOR EFFECTIVELY MANAGING CIL?

Ensure that your systems and processes are established and clearly defined to allow appropriate monitoring of CIL liable applications.
